(3) Rider RCA combines both the: (1) Renewable Energy Resources and Coal Technology Development Assistance Charge; and (2) Energy Assistance Charge for the Supplemental Low-Income Energy Assistance Fund. The latter is calculated using a Base Energy Assistance Charge and a multiplier specific to a customer's delivery class. Rider RCA also charges a Residential Real Time Pricing Program Cost Recovery Charge to all residential customers. (1) X.XXX denotes a charge, and (X.XXX) denotes a credit.

(2) Factors are multiplied times the Base Charge with rounding. Single monthly charges and per kilowatt charges are rounded to two decimal places. Charges per kilowatthour are rounded to five decimal places.

(3) Rider RCA combines both the: (1) Renewable Energy Resources and Coal Technology Development Assistance Charge; and (2) Energy Assistance Charge for the Supplemental Low-Income Energy Assistance Fund. The latter is calculated using a Base Energy Assistance Charge and a multiplier specific to a customer's delivery class. Rider RCA also charges a Residential Real Time Pricing Program Cost Recovery Charge to all residential customers. For more information, please refer to the complete Rider RCA tariff in the Company's Schedule of Rates for Electric Service.

(4) All RBAF's are in the order of the delivery classes listed.
